

## Clark Forklift Part

Clark Forklift Part - At present, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 individual components built for 20 unique models of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a continual mission to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is intended to find and acknowledge the most effective methods for production plant stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the proficiency and brilliance of their products while minimizing costs. The new value engineering agenda combines progressive product improvement and delivers superior consumer support and service within the industry.
